

Fremington Primary School

Art Curriculum Overview

INTENT

At FPS, we aim to provide a high quality Art, Craft and Design education that engages, inspires, communicates and challenges pupils, equipping them with the knowledge and skills to experiment, invent and create their own works of Art, Craft and Design. As they progress, pupils will develop their ability to appreciate and interpret what they observe, communicate what they think and feel or make what they imagine and invent as they develop their **critical thinking skills**. They will 'know more and remember more.' We have designed a **rich and varied** curriculum that ensures pupils can see, know and experience a wide range of Art and artists, including those from different periods and cultures which they will explore, investigate and evaluate. This content and approach reinforces our global curriculum, enabling our pupils to become **responsible world citizens** with an understanding of how Art impacts and enhances societies and **shows an awareness of world issues**, past, present and future, and contributes to the culture and creativity of our surroundings. In learning these skills pupils will show **respect** and **empathy** and understand the importance of **truth** and **fairness**. We recognise the vital role of Art, Craft and Design in allowing **effective communication, self-awareness**, curiosity, **creativity** and self-expression to develop alongside resilience, confidence and **reflection** skills. We intend our pupils to **research, collaborate, evaluate** and **reflect on risks taken** to actively make a better world for their future.

IMPLEMENTATION

We believe that it is important for all children, but especially those in the early years, to engage with the arts regularly and to explore a range of materials and media. These skills help pupils to work towards the Early Learning Goals, such as safely using and exploring a variety of materials, tools and techniques. High-quality practice in the early years stimulates children's interest and imagination in the materials and media they encounter and provides the necessary foundations for future learning.

The sequential progressive learning of knowledge, skills and vocabulary are taught within Art and Design. Within a block of lessons, time will be devoted to develop practical methods and techniques where pupils can experiment, learn techniques, design, create, re-appraise and communicate. They will learn about art movements and artists and how this has changed throughout history. Art lessons are planned to connect with other areas of the curriculum in context in particular with Oracy, History, Computing, Maths and Literacy and link to the needs of our pupils. We aim to provide the pupils of RCPA with a distinctive approach where the mind and body interacts with a child's culture, environment, thoughts and emotions as well as developing practical knowledge of how to create art, craft and design e.g. learning the methods and techniques that artists, craft-makers and designers use.

Concepts are connected to enable pupils to acquire new knowledge and progress in their understanding. These include visual elements e.g. colour, line, pattern, texture, along with techniques, media and materials as well as recording the emotional impact of a stimulus or the Art process itself. These elements will be used as a basis for assessment.

From Year One onwards, sketchbooks are used to record pupils' observations and use them to re-visit ideas to improve their mastery of Art and Design techniques, including drawing, painting and sculpture using a range of materials. They will be able to talk with confidence about the differences and similarities of different practises and disciplines and make links to their own work.

All pupils, including those with SEND or disadvantaged pupils will be encouraged to work towards and reach specific end points within our ambitious curriculum. We appreciate that their 'journey' to get to the end goal might look different to some pupils and we will use adaptive teaching styles, approaches and equipment e.g. more guided instruction by breaking down tasks into smaller parts, repetition, worked examples that model and exemplify key techniques or aspects of techniques, more structured tasks by limiting the choice of materials, confining practice to the production of preliminary models or sketches rather than finished final outcomes.

ART Curriculum Overview

IMPACT

Our curriculum is designed to be accessible to all whilst maximising the development of every child's ability. We want our learners to reach and exceed their potential in Art and Design at FPS and beyond and have the knowledge and cultural capital they need to succeed in life. Our early education curriculum will prepare pupils for their learning in KS2 and by the end of Year Six, pupils will have covered all the areas of the Art, Craft and Design curriculum within different contexts and felt a sense of ownership about their sketchbook. They will make creative contributions, exploring their ideas and recording their experiences, become proficient in drawing, painting, sculpture and other craft and design techniques, being able to evaluate and analyse creative work using the language of Art. They will know about great artists, craft-makers and designers and understand the historical and cultural development of their art forms and use this knowledge to debate and have a dialogue about art. We aim for pupils to have a good knowledge of art's past, present and future including the materials and processes used by making connections through time and having a knowledge of the history of art and its meaning and interpretations. We want pupils to have an accurate impression of art work that a diverse range of artists, craft-makers and designers have produced e.g. traditional, classical and contemporary art, those artists from outside Europe and from diverse communities.

Our curriculum has been designed to help pupils acquire and remember new knowledge. Through a carefully sequenced curriculum pupils will ensure that pupils knowledge builds in growing complexity through deliberate practise to achieve our ambitious goals. All pupils, including those with SEND, are given the best chances to keep up.

From these strong foundations to build upon, there will be a seamless transition to the next stage of their journey. Reflecting on their sketchbook, pupils will be able to communicate their own talents and passions and discuss the meaningful learning experiences they have taken part in. The sketchbook will have been a place which questions about the world are explored and answered independently and with others, with responses used to show their understanding of different techniques, processes, ideas or outcomes including work made by artists, craftspeople, architects and designers. Pupils will be able to reflect on the progress they have made within a variety of Art skills and with their own personal growth to have the confidence to embrace their next steps. They will be respectful citizens who use their creativity and self-expression to show an awareness of world issues and begin to use their creativity to communicate their thoughts.

ART CURRICULUM OVERVIEW

This document contains a comprehensive list of 'I Can' statements for every element of the Art curriculum from Nursery to Year 6. The highlighted statements are the key concepts. The statements demonstrate a clear progression of skills and knowledge that will ensure high quality implementation of the Art curriculum at RCPA. The Curriculum is broken down into the following areas:

Drawing	Painting	3D work/ sculpture	Printmaking	Collage	Textiles	Digital Media
---------	----------	-----------------------	-------------	---------	----------	---------------

Teachers will use Access Art for subject knowledge and guidance. Drawing and painting will be continually taught and time will be given to varied practice and master the content of these skills to build deeper learning throughout the year. A focus will be given to drawing, painting, printing and 3D work and these will be taught each year. We aim for pupils to re-encounter these subject components in different contexts. Textiles will work in conjunction with the Design and Technology curriculum.

Within each area, pupils will be expected to use their sketchbook as a place to record their individual response to the world and to develop their own interests and fascinations and develop ownership of their own learning. We will encourage pupils to draw or paint to discover, draw or paint to show what is seen, and draw or paint to experiment alongside collecting information and annotating with relevant notes. We will teach pupils to be reflective and look back at their own or others' work, making links in their learning and to use this to raise questions and support the development in their own future work.

We believe it is important to teach the components of different drawing techniques and methods which can be learnt and practiced throughout their time at RCPA to improve fine motor control; creating a range of marks, lines and shapes, how pressure affects tone, shading to suggest form, light and dark etc. Activities will be planned that begin by focusing on what pupils already know and then introduce newer knowledge or use the same technique in a range of media to complete practice tasks that gradually increase pupils' independence.

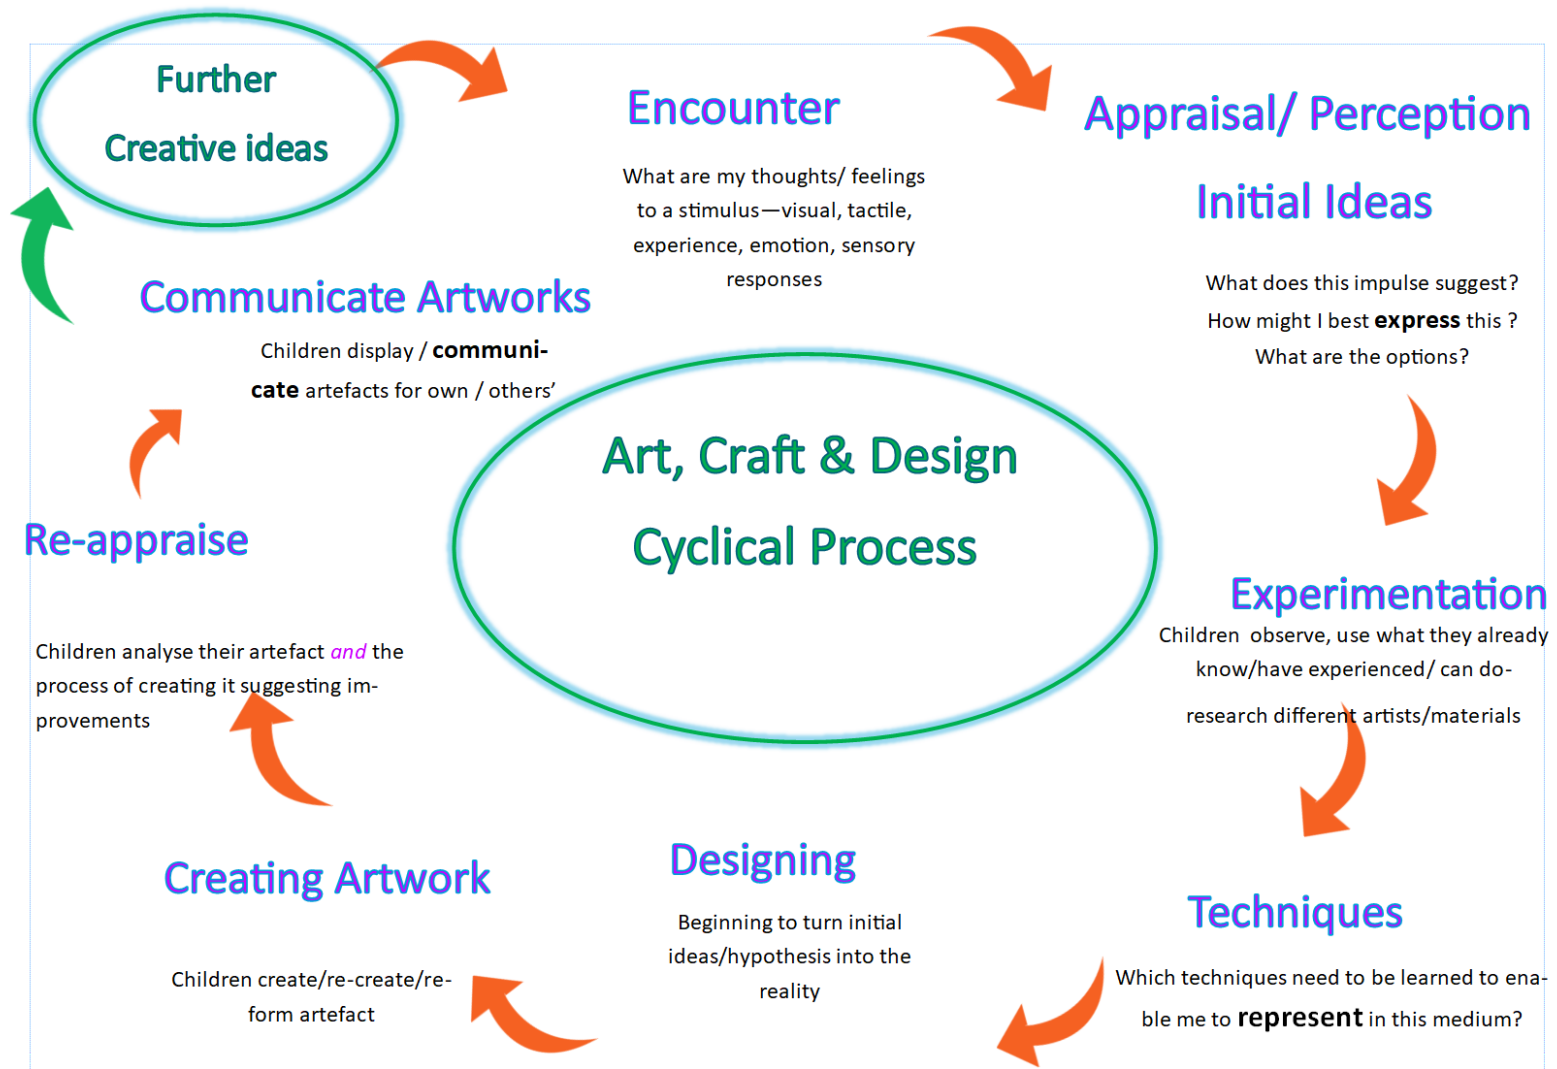

ART Curriculum Overview

Key Concepts/ Elements Distinctive to Art, Craft and Design	
Communication : Looking, Feeling, Responding/ expressing	Art can convey ideas, thoughts and emotions. From ancient times, people have used images to communicate . Visual art can explore concepts or ideas without requiring written statements. Words are sometimes included and can be an effective complement, but they're not the primary way ideas are conveyed in visual art to evoke a response.
Representation	Art presents ideas, thought and emotions in different ways whether real or imaginary. Artists may like to represent images or 3-D objects as close to real life as possible or as symbolic, impressionistic forms that provide an essence of those ideas, thoughts or emotions.
Colour	Colour is the element of art that is produced when light, striking an object, is reflected back to the eye: that's the objective definition. But in art design, colour has a slew of attributes which are primarily subjective. Those include characteristics such as harmony — when two or more colours are brought together and produce a satisfying effective response; and temperature — a blue is considered warm or cool depending on whether it leans towards purple or green and a red whether it leans towards yellow or blue. Subjectively, then, colour is a sensation, a human reaction to a hue arising in part from the optic nerve, and in part from education and exposure to colour, and perhaps in the largest part, simply from the human senses.
Tone	In art, the term " tone " describes the quality of colour. It has to do with whether a colour is perceived as warm or cold, bright or dull, light or dark, and pure or "dirty." The tone of a piece of art can have a variety of effects, from setting the mood to adding emphasis.
Pattern	A pattern is a design in which lines, shapes, forms or colours are repeated. The part that is repeated is called a motif. Patterns can be regular or irregular.
Texture	Artists and designers can use actual items to give a 'feel'(touch) in their work or they can suggest how something feels using techniques that imply texture.
Line	A line is a mark made on a surface that joins different points. Lines can vary in length, width, direction and shape. Lines are used by artists and designers to describe objects, add detail or create expression. Lines define an artwork and reveal the artist's techniques. 'A line is a dot that's gone for a walk' Paul Klee.
Shape	Shapes are two-dimensional. Positive shapes represent solid objects and negative shapes show the surrounding space. Geometric shapes are perfect and regular. Organic shapes are irregular and natural.
Form	Form refers to three dimensional objects. While shapes have two dimensions (height and width), forms have three dimensions (height, width and depth).
Space	Three-dimensional work creates real space . Two-dimensional works can create implied space using artistic technique. Objects take up positive space, while negative space is the empty space around them
Perspective	Linear perspective , creates the illusion of three dimensions on a two-dimensional surface. When teaching kids how to draw, teaching linear perspective teaches them about horizon lines and vanishing points. Viewpoint perspective , is the direction and point from which a visual image is depicted which can have different impacts eg seen from above an image of smallness/towering over/power may be obtained.

ART Curriculum Overview

How do we foster a love of Art?

To foster a love of Art we will use our website to showcase pupils Art work to parents, carers and members of the community. Images of successful pieces of independent and collaborative work will be updated throughout the year.

Planned opportunities are also written into the academic year to work with community events. Reception pupils will complete some work for Barnstaple in Bloom and local events from local Art galleries will be published on the school newsletter.

Trips and visits to local art galleries will be encouraged e.g. Burton Art Gallery, Broomhill Sculpture Gardens, Damien Hurst's 'Verity' sculpture in Ilfracombe.

Early Years Art

In Nursery and Reception we aim to prepare pupils to achieve the Early Learning Goals to be ready for their learning in KS1, KS2 and beyond. We plan opportunities to develop and refine pupils' fine motor skills and to practice and experiment with different drawing, painting, printing collage and sculpture techniques.

In addition to the Access Art open-ended and playful exploratory units, below is a selection of some the activities that are planned throughout the year. This is not an exhaustive list and this learning will be adapted, deliberately practised and repeated throughout the year so skills can be returned and developed. Drawing will be a continuous focus.

Dexterity skills will be nurtured and an early understanding of visual literacy skills will be promoted enabling each child to build in confidence as they make personal and creative responses. They will be encouraged to explore materials and make marks in a playful way and use their body and imagination to inspire making.

ART Curriculum Overview

DRAWING			
<u>Year Group</u>	<u>NC Objectives</u>	<u>Skills / Knowledge</u> (key concepts are highlighted)	<u>Links to artists</u>
Nursery	<p>Expressive Arts and Design: Explore different materials freely, in order to develop their ideas about how to use them and what to make.</p> <p>Develop their own ideas and then decide which materials to use to express them.</p> <p>Create closed shapes with continuous lines, and begin to use these shapes to represent objects.</p> <p>Draw with increasing complexity and detail, such as representing a face with a circle and including details.</p> <p>Use drawing to represent ideas like movement or loud noises.</p> <p>Show different emotions in their drawings and paintings, like happiness, sadness, fear etc.</p>	<ul style="list-style-type: none">• I can begin to explore a variety of drawing materials including pencil, graphite, felt tips, crayon, pen, chalk, soft pastel, wax and charcoal.• I can explore working on different surfaces on a large scale e.g. roll of wallpaper, child size boxes, easel, tabletop, paving• I can say what I want to create.• I can listen and get ideas from others (e.g. visiting artists, musicians and craftspeople)• I can draw from their imagination and observation.• I can add details to their drawings by selecting interesting objects to draw, and talk about the key features.• I can talk about the work of artists from across times and cultures and notice where features of artists' work overlap with my own work e.g. in details, colour, movement or line.	
Reception	<p>Expressive Arts and Design: Explore, use and refine a variety of artistic effects to express their ideas and feelings.</p>	<ul style="list-style-type: none">• I can begin to explore a variety of drawing materials including pencil, graphite, felt tips, crayon, pen, chalk, soft pastel, wax and charcoal.	Barnstaple in Bloom project – Future High Streets. What do you want for our town? How can we help? E.g. Ecosystems

ART Curriculum Overview

	<p>Return to and build on their previous learning, refining ideas and developing their ability to represent them. Create collaboratively, sharing ideas, resources and skills.</p>	<ul style="list-style-type: none"> • I can explore mark making to start to build mark-making vocabulary e.g. shape, colour, pattern. • I can undertake projects which explore observational drawing and drawing from imagination e.g. draw pictures of the natural world, including animals, plants and seasonal change. • I can visit galleries and museums to generate inspiration and conversation about art and artists. 	<p>, saving water cleaning the river, litter picking , being plastic free etc</p>  <p>work based on Aboriginal artist, Jimmy Pike Kate Driscoll on Instagram: "This Year 4 class has been working on designs inspired by Aboriginal artist, Jimmy Pike (1940 - 2002). He became famous in the 1990s and..."</p>
1	<p>Use a range of materials creatively to design and make products.</p> <p>Use drawing, painting and sculpture to develop and share their ideas, experiences and imagination.</p> <p>Develop a wide range of art and design techniques in using colour,</p>	<ul style="list-style-type: none"> • I can begin to use a sketch book to record my observations and thoughts and to use them to review and revisit ideas. • I can explore, with confidence, a variety of drawing materials including pencil, graphite, felt tips, crayon, pen, chalk, soft pastel, wax and charcoal. 	<p>Ernst Haeckle is a great illustrator/ German Biologist. https://mymodernmet.com/ernst-haeckel-art/</p> <p>Molly Haslund – creating circles</p>

ART Curriculum Overview

	<p>pattern, texture, line, shape, form and space.</p> <p>Describing the differences and similarities between different practices and disciplines, and make links to their own work</p>	<ul style="list-style-type: none">• I can create spirals using different equipment and on different sizes e.g. chalks on the playground, making spirals to music, large scale drawings, create a 'quiet' spiral and a 'loud' spiral etc• I can make a tool to create different size circles when it has a drawing material attached. Use sticks, card, cardboard, tape, twine, straws etc.• Revisit Kandinsky's circles (from Reception) and use different materials (including colour mixing) to create a class piece.• I can explore mark making to start to build mark-making vocabulary e.g. line, shape, colour, pattern.• I can explore Typography using ICT skills to help me.• I can discuss texture e.g. how to create the fur on a teddy bear/birds/animals using charcoal or felt tip pens or complete observational drawings of food.• I can undertake projects which explore observational drawing and drawing from imagination	   
--	--	--	--

ART Curriculum Overview

		<ul style="list-style-type: none">I can create continuous learning drawings of small objects e.g. keys, cutlery, tools, feathers, and coins.	
2		<ul style="list-style-type: none">I can use a sketch book to record my observations and thoughts and to use them to review and revisit ideas.I can develop mark-making skills through experimentation with various drawing media: pencil, graphite, chalk, soft pastel, wax and charcoal.I can discuss the use of shadows, light and dark.I can introduce still-life and draw from the figure/still life object.I can explore a variety of drawing starting points (stimuli), including close looking via observation from primary & secondary source material, drawing from memory and imagination.I can use drawings as basis for collage/textile work.I can experiment with line, shape, pattern and colour e.g. drawing a castle or a miniature theatre set.	<p>Barnstaple in Bloom project – Future High Streets. What do you want for our town?</p> <p>Dr Suess (amazing illustrator!) Axel Scheffler (Gruffalo), Quentin Blake etc.</p>
3	Create sketch books to record their observations and use them to review and revisit ideas.	<ul style="list-style-type: none">I can practice close observational drawing from the figure (particularly faces), exploring careful looking,	Andy Gilmore (light and sound)

ART Curriculum Overview

	<p>Improve their mastery of art and design techniques, including drawing, painting and sculpture with a range of materials [for example, pencil, charcoal, paint, clay]</p> <p>Learn about great artists, architects and designers in history</p>	<ul style="list-style-type: none"> intention, seeing big shapes, drawing with gesture, and quick sketching. I can experiment with different grades of pencils, chalks and charcoal. I can plan, refine and alter my drawings as necessary. I can make 3D drawings e.g. pyramids, still-life. I can design intricate patterns. I can make larger scale drawing from observation and imagination I can explore new drawing media in different combinations to achieve variations in line, tone, colour, shape and pattern eg silhouettes in ink and charcoal, drawing by torchlight 	<p>Cave drawings and paintings</p>  <p>Talking Points: Cave Art (accessart.org.uk)</p>  <p>Illustrator Quentin Blake</p>
4		<ul style="list-style-type: none"> I can explore relationships between line and tone, pattern and shape, line and texture e.g use foreground and background in city scapes. I can apply these skills to a variety of media, exploring outcomes in an open-ended manner. I can create accurate drawings of people, particularly considering 	<p>Louise Despont (architectural type drawings)</p>

ART Curriculum Overview

		<p>proportion. Make drawings of movement.</p> <ul style="list-style-type: none"> • I can make drawings to music. • I can make informed choices in drawing including paper and media. • I can use a growing technical skill and knowledge of different drawing materials, combined with increasing confidence in making a creative response to a wide range of stimuli, to explore more experimental drawing, following child's own interests/affinities. • I can explore layering of media, mixing of drawing media 	
5		<ul style="list-style-type: none"> • I can begin to use the concept of perspective in my work e.g. produce an increasingly accurate drawing of people or a plan for a 3D model/project. • I can make a close up observational drawing e.g. animal skin • I can extend a drawing from a given detail swatch. • I can draw effective light on objects and people from a different direction. • I can explore the potential properties and relationship of visual elements 	<p>Robert Rauschenberg</p>  <p>Carmen Hui</p> <p>Carmen Hui Art and Illustration - Carmen Hui Art & Illustration</p> <p>Choose an iconic English object e.g. jam jar and fill with wildflowers from the hedgerow</p>

ART Curriculum Overview

		<p>e.g. line, form, tone, pattern, texture, shape and colour.</p> <ul style="list-style-type: none">• I can compose shapes in a pictorial space looking at the work of Surrealism or Cubism.• I can demonstrate a secure knowledge of colour e.g. primary and secondary, warm and cold, complementary and contrasting colours• I can explore the possibilities of using paint and textile materials and techniques to make a mixed media artwork• I can make and use natural ingredients to dye fabric.• Create imaginative work from a variety of sources.	
6		<ul style="list-style-type: none">• I can manipulate and experiment with elements of art e.g. tone, pattern, texture, form, space, colour and shape .E.g. look at movement in nature (cloud shapes)• I can develop drawing skills using observational drawing.• I can make multi-dimensional drawings.• I can use colour to give drawings impact.	Vik Muniz (Brazilian artist) Frida Kahlo (Mexican artist) cartoon figures in action Klimt

ART Curriculum Overview

		<ul style="list-style-type: none"> • I can explore drawing and mark making on new surfaces and with different media e.g. clay, linking to genres such as portraiture or landscape • I can explore drawing and mark making linked to the art of another time and/or culture. • I can explore scaling up drawings, bringing in all mark-making skills previously learnt. (Consider a hanging piece of work) 	
--	--	--	--

PAINTING			
<u>Year Group</u>	<u>NC Objectives</u>	<u>Skills / Knowledge</u> (key concepts are highlighted)	<u>Links to artists</u>
Nursery	<p>Expressive Arts and Design: Explore different materials freely, in order to develop their ideas about how to use them and what to make.</p> <p>Develop their own ideas and then decide which materials to use to express them.</p> <p>Show different emotions in their drawings and paintings,</p>	<ul style="list-style-type: none"> • I can use a range of materials and tools and learn how to use them with care and precision e.g. brushes, sponges, cotton buds. • I can notice features in the natural world. • I can define colours, shapes, texture and smells in my own words. I can respond to what I see. • I can explore working on different surfaces on a large scale e.g. roll of 	 <p>Heron Patrick</p>

ART Curriculum Overview

	<p>like happiness, sadness, fear etc</p> <p>Explore colour and colour mixing.</p>	<p>wallpaper, child size boxes, easel, tabletop, paving</p> <ul style="list-style-type: none"> • I can say what I want to create e.g. people, animals. • I can listen and get ideas from others (e.g. visiting artists, musicians and craftspeople) • I can explore, experiment and talk about what happens when I mix colours together. • I can talk about the work of artists from across times and cultures and notice where features of artists' work overlap with my own work e.g. in details, colour, movement or line. 	
Reception	<p>Expressive Arts and Design: Explore, use and refine a variety of artistic effects to express their ideas and feelings.</p> <p>Return to and build on their previous learning, refining ideas and developing their ability to represent them.</p> <p>Create collaboratively, sharing ideas, resources and skills.</p>	<ul style="list-style-type: none"> • I can develop my colour-mixing techniques to enable them to match the colours they see and want to represent, with step-by-step guidance when appropriate. • I enjoy discovering the interplay between materials e.g. wax and watercolour. • I can notice features in the natural world and define colours, shapes, texture and smells in my own words. • I can talk about what they see using increasing vocabulary. 	<p>Jackson Pollock</p> <p>Pierre-Joseph Redoute (botanical drawings)</p> <p>Kandinsky and Mondrian (link to shape work)</p> <p>Eric Carle</p> <p>Barnstaple in Bloom project – Future High Streets. What do you want for our town? How can we help? E.g. Ecosystems , saving water cleaning the river, litter picking , being plastic free etc</p>

ART Curriculum Overview

		<ul style="list-style-type: none"> • I can use a range of materials and tools and learn how to use them with care and precision. • I can work on different scales e.g. big and small. • I can notice features in the natural world. • I can define colours, shapes, texture and smells in my own words. I can respond to what I see. • I can work independently and with others in a group. • I can visit galleries and museums to generate inspiration and conversation about art and artists. 	
1	<p>Use a range of materials creatively to design and make products.</p> <p>Use drawing, painting and sculpture to develop and share their ideas, experiences and imagination.</p> <p>Develop a wide range of art and design techniques in using colour, pattern, texture, line, shape, form and space.</p>	<ul style="list-style-type: none"> • I can begin to use a sketch book to record my observations and thoughts and to use them to review an an and create different shades (by adding black or white) e.g. dark, stormy sky, seascape • I can enjoy discovering the interplay between materials for example wax and watercolour. • I can use a variety of tools and techniques e.g. different 	<p>Poo painting portraits (Chris Offili) Where my wellies take me' by Michael Morpurgo / Olivia Lomenech Gill, Sue Read (local artist) Vincent Van Gogh J. 	<p>and share their ideas, experiences and imagination.</p> <p>Develop a wide range of art and design techniques in using colour, pattern, texture, line, shape, form and space.</p> <p>Describing the differences and similarities between different practices and disciplines, and make links to their own work</p>	<p>masking tape etc) to create paper sculptures</p> <ul style="list-style-type: none"> • I can explore modelling materials such as Modroc, clay and plasticine in an open-ended manner, to discover what they might do. • I can manipulate clay to create simple coil pots (animal feeding bowl) and slabs. e.g. rolling, kneading, pinching, pulling, prodding, shaping, squeezing. • I can create a sculpture based on close up drawings of animals e.g. feathers, beak, feet etc • I can use found objects to be used as tools to press into plasticine or clay to create texture and to understand notions of positive and negative. 	<p>Look at artists who have been inspired by birds e.g. Ernst Haekel, Hoang Tien Quyet, John James Audubon, Dusciana Bravura</p>      
--	--	--	--

ART Curriculum Overview

2

- I can explore how 2d can become 3d,
- I can continue to manipulate malleable materials in a variety of ways including rolling, pinching and kneading. I can explore carving as a form of 3D art.
- I can explore the expressive properties of clay.
- I can demonstrate experience in simple decoration techniques: impressed, painted, applied and use them when appropriate using natural or man-made materials.
- I can shape, form, construct and model materials for a purpose, e.g.
 - create a decorative tile from observation and imagination.
- I can use tools and equipment safely and in the correct way with increasing confidence.

ART Curriculum Overview

		<ul style="list-style-type: none"> • I cut simple shapes from card and use them to construct architectural forms. • I can use drawn, collaged and printed elements as surface decoration for the architectural maquettes. 	
3	<p>Create sketch books to record their observations and use them to review and revisit ideas.</p> <p>Improve their mastery of art and design techniques, including drawing, painting and sculpture with a range of materials [for example, pencil, charcoal, paint, clay]</p>	<ul style="list-style-type: none"> • I can independently join clay and have an understanding of different adhesives and methods of construction e.g. score clay and add slip. • I can plan, design and make a simple papier mache object. 	<p>Giacometti Anthony Gormley Damien Hirst 'Verity' (Ilfracombe)</p>  <p>Look at Roald Dahl characters and create your own e.g. Dirty Beasts.</p>
4			
5	<p>Learn about great artists, architects and designers in history</p>	<ul style="list-style-type: none"> • I can plan, design, make and adapt models showing an understanding of shape and form. • I can build a solid structure. • I can make a mould and use plaster safely. 	<p>Alexander Calder Salvador Dali Cornelia Parker Thomas J Price (bronze sculpture)</p>

ART Curriculum Overview

		<ul style="list-style-type: none"> • I can discuss and evaluate their own work and that of any sculptors. • I can analyse and interpret natural and manmade forms of construction. 	
6
